

The home for operational research

Public Health Action (PHA) is a quarterly open access journal published by the *International Union Against Tuberculosis and Lung Disease* (The Union). PHA's aim is to promote The Union's vision, *Health solutions for the poor*, by disseminating new knowledge on health systems and health services for vulnerable groups, with a priority on tuberculosis, lung health, non-communicable diseases and related public health issues. The emphasis is on health solutions, particularly related to the operational elements of service provision.

“PHA encourages publications that contribute to making the greatest possible impact on health in developing countries”

Dermot Maher,
Editor in Chief, PHA

- **Editor-in-Chief: Dermot Maher**
- **Now in its seventh volume**
- **Wide circulation: quarterly e-alert sent to >50 000 contacts**
- **Rapid turnaround times:**
 - <5 months from submission to publication
 - <2 months from acceptance to publication
- **Already in top 100 on Ingenta in terms of full-text downloads**
- **All issues accessible on PubMed via PubMed Central**

Advertising in Public Health Action

Deliver your message directly by e-mail to over **50,000** contacts: advertise in the quarterly PHA electronic Table of Contents (e-TOC). Sent to all our readers when a new issue goes online (on 21 March, 21 June, 21 September and 21 December), the e-TOC allows users to click straight through to an article of interest. As only one slot is available per e-TOC, your ad will receive maximum exposure.

Currently €990/month.

Contact pha@theunion.org for more details.
